PROFESSIONAL SUMMARY

CTO and Senior Software Engineer with 8+ years of experience building and shipping mobile, web, ERP and SaaS platforms, including 15 apps live on the App Store and Google Play. At CodeWealth I own technology end to end for 14+ client projects (58 software products) across FinTech, Healthcare, ERP, Logistics, Food and Education for clients in Egypt, Saudi Arabia, the UAE, Libya and Spain. I write the FRS and SRS, plan delivery, design architecture, code, lead the team, meet customers, and run production DevOps: Docker containers, server monitoring, security hardening and automated recovery. Previously a Senior Software Developer at Sigma on the Red Bull MOBILE Saudi app, and a Senior Flutter Developer at e& (Etisalat Misr).

CORE SKILLS

Languages: Python, JavaScript, TypeScript, Node.js, PHP, Dart, Java, SQL

Mobile: Flutter, React Native, Android, iOS, Firebase, App Store & Google Play publishing

Web & Backend: Next.js, React, Laravel, Strapi, REST APIs, WebSockets, HTML/CSS

Databases: PostgreSQL, MySQL, Redis, Firebase

DevOps & Security: Docker, Linux servers, Nginx, CI/CD, server health monitoring, Bash automation scripts, firewall rules & IP blocking, Git

Integrations: Paymob, Fawry, Geidea, OTP/SMS gateways, Google Maps

AI & Tools: Cursor AI, AI-assisted development, Android Studio, VS Code, Figma handoff

Leadership: Technical leadership, FRS & SRS writing, project planning, Agile/Scrum, code review, mentoring, client meetings

PROFESSIONAL EXPERIENCE

Chief Technology Officer (CTO) & Lead DevOps Engineer
2025 – Present

CodeWealth – Software Engineering & Digital Products — Sheikh Zayed, Egypt

- Own technology, delivery and coding for the whole CodeWealth portfolio: 14+ client projects and 58 software products (websites, mobile apps, dashboards, ERPs, backends).
- Write the FRS and SRS for every project, then plan scope, milestones and sprints and turn them into architecture and team tasks.
- Built and deployed the CodeWealth platforms myself, including Amlak Finance, Tiba ERP, Rakny, DentaLux, Eqraa & Ertqee, Shajarat Al-Durr and Al-Rowad.
- Lead and mentor the engineering team, run code reviews and set quality standards across all projects.
- Meet customers directly for discovery, requirements, demos, change requests and acceptance sign-off.
- DevOps: deploy all projects to production servers and containerize services with Docker.
- Monitor server status and harden servers with firewall rules, malicious-IP blocking and access control.
- Wrote health-check and auto-recovery scripts that restore services after downtime, such as payment delays or provider infrastructure updates.
- Delivered integrations including Paymob payments, OTP providers, real-time WebSockets and App Store / Google Play releases.

Senior Software Developer
2025 – 2026 (1 year)

Sigma — Mall of Arabia, Giza, Egypt

- Senior developer on **Red Bull MOBILE Saudi**, the telecom self-care app for Android and iOS (Google Play · App Store).
- Built features and improvements for plan and line management, add-ons, the Giga Coins rewards program, invite and earn, and retention offers.
- Worked on performance, stability and bug-fix releases through the 3.0 app refresh, in agile sprints with QA, product and backend teams.

Senior Software Developer
Oct 2024 – Jun 2025

Shelter Investment Group (Shelter Technology) — Cairo, Egypt

- Built and published 9 apps for Shelter Technology, all live on the App Store and Google Play: CureSuite, CureSuite Clinic, PT-Finder, PT-Finder Trainer, Five Fits, Five Fits Trainer, LA7, Absi and Wee in.
- Covered healthcare (clinic and patient booking), fitness (trainers, workouts, progress), events and ticketing, and encrypted file sharing.

Software Development Team Leader
Mar 2023 – Jul 2024

Geomama Giza, Egypt

- Led software projects to on-time, high-quality delivery; mentored the team and introduced agile practices that improved delivery speed.
- Aligned engineering goals with business objectives and used performance metrics to drive improvements.

Senior Flutter Developer
Oct 2023 – Jan 2024

Helpoo Cairo, Egypt

- Developed, tested and maintained the Helpoo roadside-assistance app (live on Google Play) and worked on the Helpoo Driver app (App Store & Google Play) and admin tool.
- Reduced Google Maps API costs with a smarter integration while keeping the same user experience.

Senior Flutter Developer
Dec 2020 – Mar 2023

e& (Etisalat Misr) Cairo, Egypt

- Built high-performance Flutter apps including Etisalat Sports and Etisalat Games.
- Ran code reviews, mentored junior developers, and wrote unit and integration tests; tuned performance based on analytics.

Flutter Developer / IT Manager
Aug 2018 – Jun 2019

ICS Cairo, Egypt

- Built scalable Flutter apps, led architecture decisions, integrated third-party SDKs and APIs, and improved CI/CD.

Freelance Mobile Application Developer
Aug 2018 – Sep 2023

Self-employed Cairo, Egypt

- Delivered 20+ apps, e-commerce stores and dashboards for clients in mobility, retail, real estate and media.

Teaching Assistant
Sep 2018 – Jan 2019

Misr University for Science and Technology Giza, Egypt

LIVE ON THE APP STORE & GOOGLE PLAY

15 published apps: Red Bull MOBILE Saudi · DentaLux & DentaLux Driver · CureSuite & CureSuite Clinic · PT-Finder & PT-Finder Trainer · Five Fits & Five Fits Trainer · LA7 · Absi · Wee in · Helpoo & Helpoo Driver. Store links and screenshots for each are in the portfolio.

KEY PROJECTS – screenshots, scope & role for each at the portfolio link above

Amlak Finance – FinTech · Website, Admin, Backend · Next.js, Strapi, PostgreSQL. Mortgage platform with underwriting, disbursement and collections, plus a full audit trail.

Tiba ERP – Enterprise ERP · Libya, Egypt, KSA · Next.js, Node.js, PostgreSQL, Redis. Arabic-first ERP covering accounts, contracting, warehouses, fixed assets, collections and permissions, plus a website and offline desktop app.

Rakny – Smart parking & valet · POS app, Customer app, Admin, Backend · React Native, WebSockets, Paymob. Real-time occupancy, booking and payments. Live.

DentaLux – Healthcare marketplace · 6 products. Landing site, customer app, delivery app, vendor portal, admin dashboard and backend. Live on the App Store and Google Play.

Also led: Eqraa & Ertqee (education ERP + Mushaf app), Shajarat Al-Durr (genealogy), Al-Rowad (B2B ordering), L-RafeeQ (auto-finance network: 2 apps + 4 dashboards), Savoro (restaurant ecosystem, Spain), Bahr (logistics ERP + HR app), Ciatto and Olfa (food and café delivery apps), Instabid (bidding marketplace), Elite / Majan (mall platform), and the CodeWealth website.

Earlier work: Etisalat Sports, Etisalat Games, Voya Rider & Driver, CRVD ERP (Laravel), CRVD AI Platform, Twfeer SaaS, bomaz-mart, OCD Express, Naeem, Elevated House (KSA), ESEGO, AL-NASR, Avenue Real Estate and 15+ more.

EDUCATION

B.Sc. Computer Science – GPA 3.88 / 4.0
2014 – 2018

Misr University for Science and Technology Giza, Egypt

Graduation project: voice-controlled medical robot with X-ray detection and vital-sign sensors. **Course:** Oracle Java (J2SE, J2EE, ADF I & II), 2017.

Languages: Arabic (native) · English (professional working proficiency)
